Bhopal office

No. 1 Everywhere

No. 1 Silo Manufacturer

VAK Industries

No. 1 Crane Supplier in MP

VAK Equipments

No. 1 Crusher in MP

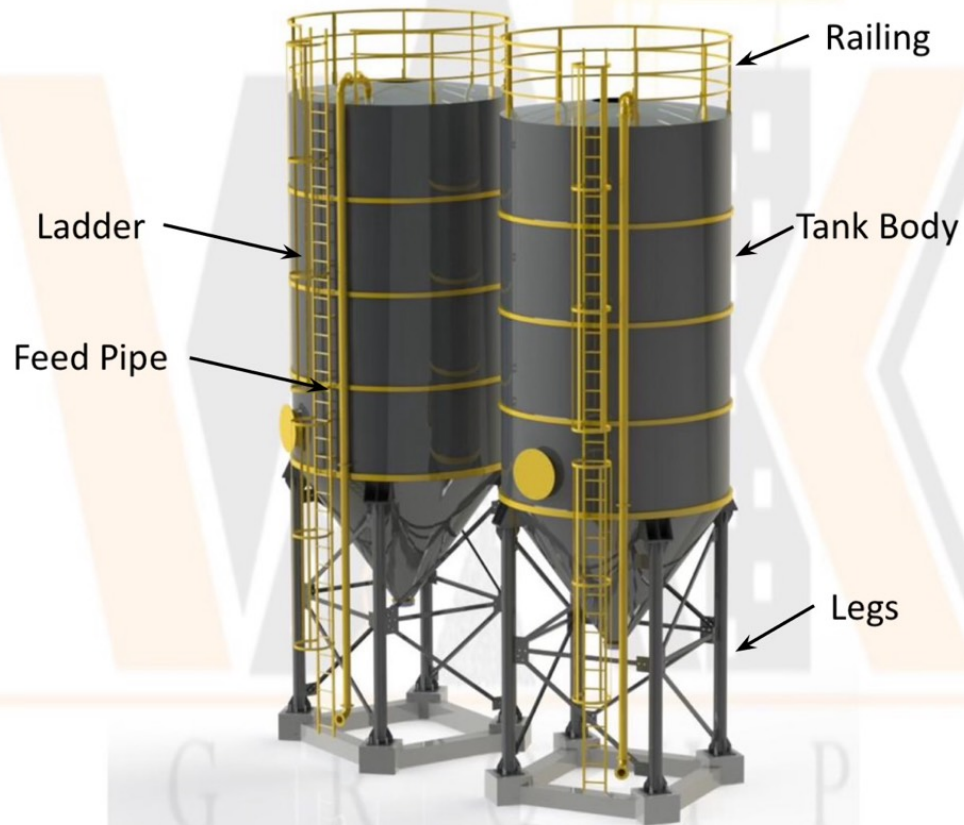

VAK Consequip Solutions

Silo Setup Description

Silo tank

Models

	Silo 100T	Silo 150T	Silo 200T
Cement Cap.	100 T	150 T	200 T
Flyash Cap.	60 T	90 T	125T
Silo dia.	3250 mm	3600 mm	4000 mm
Silo height	12.5 mtr	14.5 mtr	14.5 mtr

Problem analysis

Image	Issue	Reason	Action taken
	Leakage in silo	Welding done at site locally	No welding at site, full proof welding from factory
		Gap in welding	Automatic welding uses
		More joints in shells	Coil cuts been used
	High wear of feeding pipe	Short bend used cheaper	Long rad. Bend used, long life
	Not flowing cement in cone/ need hammering	Bin areators not working	Automate working, provision to increase bin areators
PU Paint	Paint peeloff	Not bonded properly with steel	PU paint used + uses clening processes before paint
	Fast rusting	Scrap steel uses	Fresh steel uses

Silo Accessories (Cosben /Wam make)

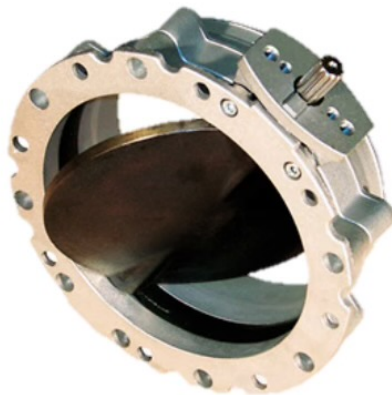

Top Air Filter

OR

Bottom Air Filter

Butterfly valve

Pressure Relief valve

Vibratory Bin Aerators

Screw Conveyor

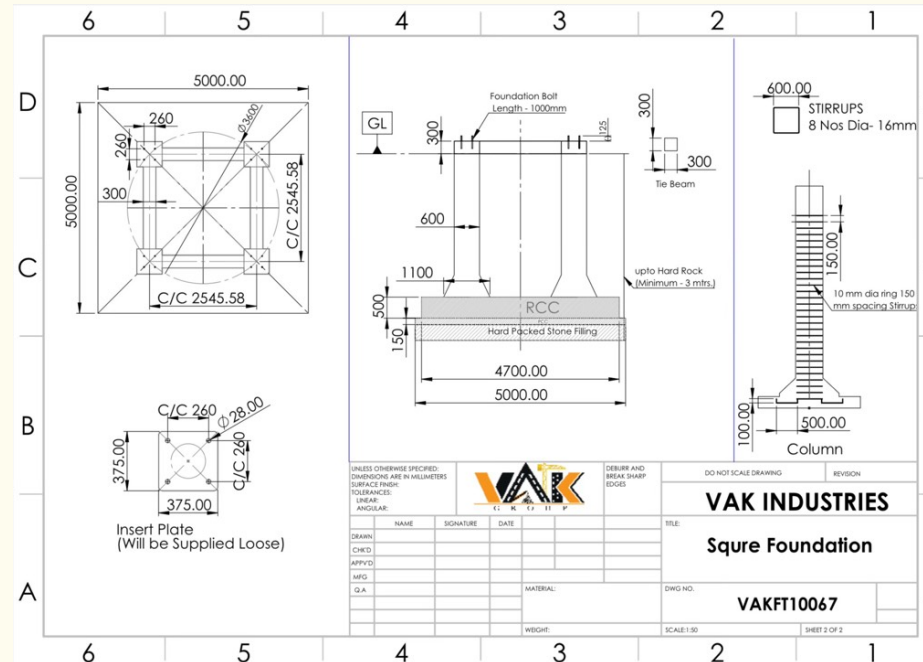

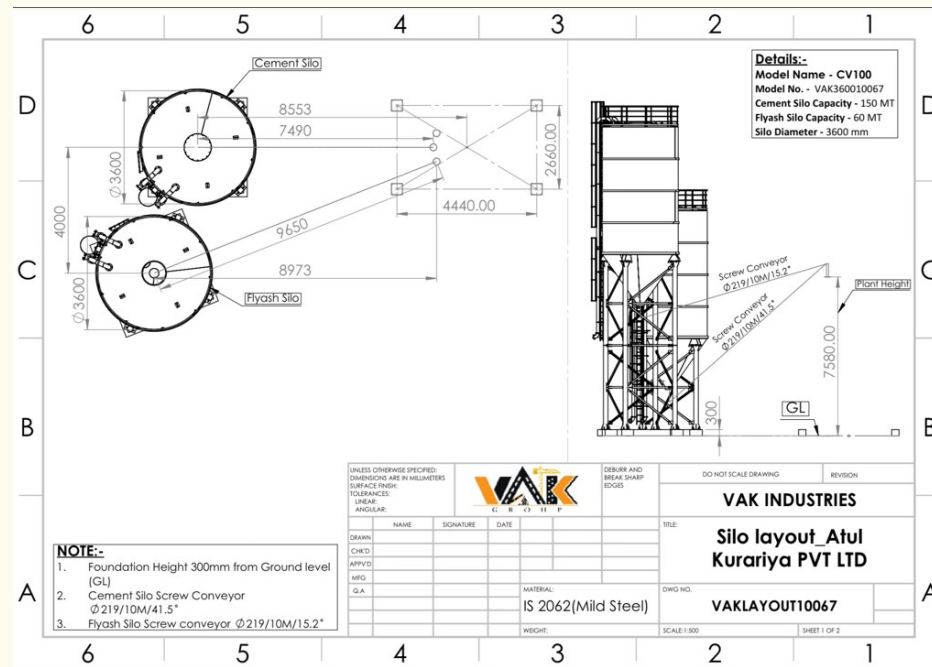

Models

- 168 mm ID
- 219 mm ID
- 273 mm ID

SC Inclination Angle
Cement : 45°
Flyash : 30°

Drawing provided for each site case

Bulker feeding system

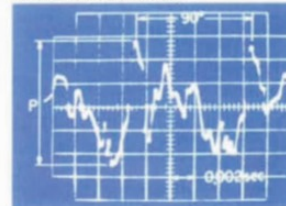

Others

Twin Lobe Root Blower

- Pulsating air flow
- High Vibration
- Bearing and gears less life

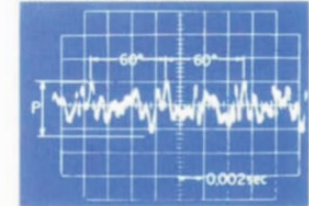

Discharge Pressure Variation
in a 2-Lobes Rotor

Tri Lobe Root Blower

- Higher + Steady air flow rate
- Lower vibration / Noise
- Less load on bearing and gears

Discharge Pressure Variation
in a 3-Lobes Rotor

Skid platform
